Marshfield Area Technology Council

Our Mission

Grow, attract, educate, network, and retain information technology talent and business in the Marshfield area.

Fill out the adjacent form with your desired areas of interest and contact information. Forms can be emailed to: isaacson.karen@marshfieldchamber.com, faxed to (715) 387-8925, or mailed back to the MACCI office.

Interested In Marshfield Area Technology Council?

The Marshfield Area Technology Council (MATC) is a team of professionals from various industries throughout the community whose mission is to grow, attract, educate, and retain information technology talent and business in the greater Marshfield area. The goal of the newly formed MATC is to implement information technology initiatives through collaboration, networking, and education that will support related professional and industry development in the Marshfield area. A steering committee identified IT areas of interest including advancing technology and infrastructure; enhancing IT-related careers; and starting and growing IT businesses.

What is MATC?

Why get involved?

Are you interested in any of the following areas?

Advancing technology and infrastructure (Access, affordability, connectivity, software development, UX designer)

Enhancing IT-related careers (Education, internship programs, networking and promoting, professional development, women and minority engagement)

Starting and growing businesses

If the answer is "yes" to any of these areas, then involvement in MATC is for you.

How do I get involved?

You can get involved by providing your contact information and interest areas. Once we receive responses from all interested IT professionals in Marshfield and surrounding areas, we will form several focus groups based on interests shown by those who want to join focus groups. Once focus groups are formed, these groups will be mostly self-govern but still work under the direction of MATC steering group, each focus group will set its own objectives and meetings schedule.

Volunteer Opportunities

There may be volunteer opportunities available through the various focus groups. Would you be interested in any of the following? Check all that apply.

- Mentorship / education (K-12) – e.g., job shadowing, being a presenter, or STEM education, Youth Apprenticeship mentor
- Profession Development – e.g. being a business / IT resource, guest speaker

Areas of Interest

The IT Focus Area groups will meet as needed and consist of the following interest areas. Please check all that apply:

- Business Analysis
- Data Warehousing and Analytics
- Database Technologies
- Infrastructure
- Leadership Development
- .NET
- Network and Security
- Project Management
- Software Development and Design
- Technology Start-ups
