PRESS RELEASE

Ellis Construction Awarded 2018 Gold Safety Award: One of State's Highest Recognitions for Construction Safety

For Immediate Release:

Stevens Point, WI (Feb. 12, 2017) – Ellis Construction has been awarded the 2018 Gold Safety Award through the Associated Builders and Contractors, Inc. Ellis Construction will be honored at the SuperCon event held by the ABC of WI on February 15th.

In order to qualify for the Gold Safety Award of Honor, companies must demonstrate the highest proficiency in safety adherence and demonstrate that their track record is well above the industry average. Ellis Construction far exceeded that with over 80,000 hours of work with zero lost time accidents for the second year in a row. Ellis Construction is one of only a handful of companies Statewide that have reached this milestone.

“Safety is now central to all we do at Ellis in planning and job site preparation.” Said Tim Kreft, Ellis General Superintendent and Safety Director. “We have fully integrated the culture of safety as the number one guiding factor for everything we do here at Ellis.” Kreft added.

“Our entire team is responsible for each other in how we work safely and effectively together as a cohesive unit.” “I have never been more proud of our team for their continued efforts and successes, and I thank all of them for helping Ellis reach the highest levels of safety in the State.” Said Erik Carlson, President of Ellis Construction.

About Ellis Construction:

Ellis Construction has been a recognized name in construction services in Central and Northern Wisconsin for over 85 years. Ellis provides construction management, general contracting, design assist and design-build services; in the healthcare, manufacturing, and general commercial markets.

About ABC of Wisconsin:

Associated Builders & Contractors (ABC) of Wisconsin is a construction trade association representing nearly 800 general contractors, subcontractors, manufacturers, material suppliers and other professional construction-related firms
